3rd NOD list, please Scott.

Davis, I'd suggest we push back on this to allow appropriate coordination with DEQ and QEA.

Thanks-

S

Subject: Re: Sediment Coring Portland Harbor

Davis,

In your email to Ken last week you requested a minimum of 2 days notice prior to collecting any of the cores at Gasco. But here I am seeing less than a day of notice here.

This is problematic because: 1) our staff involved in logging will not receive the overview of the Gasco specific NAPL identification scheme until later tomorrow and 2) we have told DEQ we will give them two days notice of the sample collection and Madi and Sarah were hoping to observe.
